

LTA-401 7.50R16 122/120N

Description

Tyre provides the ideal combination of high mileage, ride comfort, fuel efficiency and safety on any road in all seasons. The tread pattern enables even load distribution and good pulling power; excellent handling in all weather conditions; efficient expelling of water, mud and snow out of the tyre contact path area; improved traction at driving, maneuvering and braking

Specification

Tire flap	-
Overall diameter, mm	802
Section width, mm, not more	220 on aRim 6.00G SDC
Static radius,mm	373
Max. speed,km/h (Speed rating)	120 (L);140 (N)
Ply rating	-
