

TM1000

ProgressiveTraction®

- Dual anchor, better grip
- Reduced vibrations, less fuel consumption
- Enhanced self-cleaning, higher traction

Tire Description	Section Width	Overall Diameter	Rolling Circumference	Static Loaded Radius	Speed Radius Index	Rim	Permitted Rims	Nominal Pressure	Tread Type	Type

Compared to the standard technology, the new VF TM1000 ProgressiveTraction® can carry up to 40% more load at the same pressure or work with 40% less pressure at the same load.

The TM1000 tire line features the ProgressiveTraction® technology, an award-winning innovation recognized worldwide for delivering significant advancements in performance and efficiency.

The new TM1000 ProgressiveTraction®, designed in compliance with VF regulations, is an innovative tire capable of providing superior load capacity, reducing soil compaction, while providing unbeatable traction. On the road, the new range guarantees high performance, increasing machine productivity.

The TM1000 ProgressiveTraction® range now includes new sizes featuring the added power of the latest **Pressure Field Operations (PFO) technology**. This innovation combines greater load capacity, lower tire pressure, and reduced soil compaction to deliver outstanding performance at very low speeds during demanding field operations.

Available Tires Sizes:

380/85R46 | 420/85R34 | 480/80R50 | 480/80R50 | 480/95R54 | 540/65R30 | 600/70R30 | 650/60R34 | 650/65R42 | 620/75R30 | 650/75R42 | 650/85R42 | 710/60R34 | 710/60R38 | 710/70R42 | 710/75R42 | 800/70R38 | 650/65R34 | 650/85R38 | 750/75R46 | 900/60R42
